malodours from toilets, grout and associated plumbing.

TOILET BOWL AND URINAL CLEANER

WHERE TO USE: In toilet bowls and on Urinals

BEST KNOWN FOR: Very fast results, extremely effective

SURFACES: Porcelain, stainless steel (when wet) tiles and ceramics

ENVIROMENTAL: Bio-degradable, septic safe

"BOWL CLEAN is one of the fastest, strongest toilet cleaners ever!"

Important : Do Not Mist – best when poured as it reduces fumes.

BUSHBY'S –BOWL CLEAN is a powerful, highly concentrated cleaner. The strength of BOWL CLEAN makes it highly effective at removing rust and scale from toilet bowls. Bowl Clean is the only product we would recommend for efficient toilet cleaning where hygiene is paramount with fast results.

Bowl Clean doesn't just clean the obvious visual points of a toilet. Tests have proven Bowl Clean is effective at removing scale and deposits throughout the length of the plumbing, reducing blockages whilst destroying bacteria and mal odours.

HOW TO USE:

For toilets and Urinals: Always flush or add water to the surface before adding Bowl Clean. Do not dilute for the first clean. The concentration provided is for extreme cleans and best results. The amount you use will determine the result. Clean toilets require only small amounts approximately ½ a cup for maintenance.

Scrub with a nylon brush starting from the bottom or trough and work your way up. This reduces the chances of runnels (etch marks) being left on stainless steel or tiles. Always rinse off thoroughly.

Directions for use are to: Flush the toilet, Squirt BOWL CLEAN under the rim and on the wall of the bowl, swab the solution around the bowl, along the edge and under the rim. Flush the toilet.

Clean Cement and grout: Dilution rate will vary. Test area for results. Wash off with plenty of water.
